iRevo SmartPC performance rivals that of an entry level PCs costing three times as much. iRevo SmartPC is backed with iRevo-Cloud for automated updates and Apps. Connect iRevo SmartPC to your existing TV for big screen experience and save thousands of rupees. Included wireless keyboard and mouse makes it easy to seat little far from a large TV screen and still operate the device comfortably. Supports LED, LCD, Plasma and CRT TVs. iRevo SmartPC also connects to a PC Monitor with HDMI input.

Highly intuitive, organized and clean WebTop makes it easy to use by children and first time users on a TV screen, yet it is powerful for use by heavy users. Enjoy virus free Web Browsing, do Email or Skype with family and friends far away.
